

Shrewsbury International School online application system

Some notes on the system

- You may wish to prepare your answers before inputting. If so, here is a copy of the application form for this purpose.
- To print a copy of your completed application you will need to use the print options on your internet browser.
 - Your responses may be longer than the visible space in the text box resulting in scroll bars appearing to help navigate through the text. Google Chrome is best suited for printing in this case as it allows text boxes to be expanded to fit to responses on screen beforehand. This will allow that are larger than the standard size box for the screen. It can be downloaded free at www.google.com/chrome.
 - You will need to print each page separately and before pressing the “End” button on the last page
